Vitamin A and Carotene

Carotene, Beta                        25 ug/dL      3 - 91 01
Vitamin A                           45.0 ug/dL   20.1 - 62.0 01

Reference intervals for vitamin A determined from LabCorp internal studies. Individuals with vitamin A less than 20 ug/dL are considered vitamin A deficient and those with serum concentrations less than 10 ug/dL are considered severely deficient. This test was developed and its performance characteristics determined by LabCorp. It has not been cleared or approved by the Food and Drug Administration.
