**Total Score, add three scores**

- **Interpretation Table:**
  - Calculate total score by adding the 3 individual bacterial vaginosis (BV) marker scores together. Total score is interpreted as follows:
  - Total score 0–1: Indicates the absence of BV.
  - Total score 2: Indeterminate for BV. Additional clinical data should be evaluated to establish a diagnosis.
  - Total score 3–6: Indicates the presence of BV.

This test was developed and its performance characteristics determined by LabCorp. It has not been cleared or approved by the Food and Drug Administration. The FDA has determined that such clearance or approval is not necessary.
**ABNORMAL REPORT**
