Please note:
This test was developed and its performance characteristics determined by LabCorp. It has not been cleared or approved by the U.S. Food and Drug Administration.

The FDA has determined that such clearance or approval is not necessary. This test is used for clinical purposes. It should not be regarded as investigational or for research.

For inquiries, the physician may contact Branch: 800-222-7566  Lab: 336-436-2762
HCV Genotyping Non Reflex

Hepatitis C Genotype

Specimen has insufficient hepatitis C virus RNA to obtain genotyping results. This genotyping assay should only be used for known HCV positive patients with HCV RNA levels above 1000 IU/mL.

Please note:

This test was developed and its performance characteristics determined by LabCorp. It has not been cleared or approved by the U.S. Food and Drug Administration.

The FDA has determined that such clearance or approval is not necessary. This test is used for clinical purposes. It should not be regarded as investigational or for research.
